To Whom It May Concern:

Just tell us your story about:

If you are a veteran tell us about your time on Guam and any thing you know about agent orange or any other contamination you know about. Tell us about how it has affected you or somebody you know. If you are a loved one of somebody that has been effected, tell us your story.

If you are a civilian and live on Guam now or have in the past tell us your story and any thing you know about agent orange or any other contamination and how it has effected you and your family or somebody you know.

If you were a contractor on Guam and know anything about agent orange or other contamination tell us your story.

As you can see this site is open to anybody and everybody!

If we work together maybe we can over come some of the lies, injustice, and ignorance that are involved with this terrible problem.

These things at the bottom are important but we won't turn your story away if they aren't all on your story but it adds credibility. The more credibility the better.

Things to include at the bottom:

I certify that the statements in this letter are true and correct to the best of my knowledge and belief.
